

Beal Manufacturing Expanding in Ranlo!

RANLO, NC — Beal Manufacturing is expanding in Ranlo. The nine-year old company is moving into the former Carolina Mills building located at 2403 Lowell Avenue. In the next several months over 60 new jobs will be created by Beal Manufacturing. Hiring will begin immediately. Prospective employees should contact Billy Cooper at 704-824-9961 ext. 18 for more information on obtaining employment applications.

The company is moving from 1820 Spencer Mountain Road to 2403 Lowell Avenue. This new facility will allow for the addition of ring spun polyester yarn production for the apparel industry. The larger plant will allow Beal Manufacturing to provide additional products to its customers and accommodate future expansion.

Giles Beal, III the president of the company had these comments. "We have been very fortunate to have started up in Gaston County. With the assistance of Senator Hoyle my company was able to obtain an Industrial Development Fund loan from the North Carolina Department of Commerce. This loan program provided for the renovation of several machines essential for this operation. I really appreciate the support that I have been given from the town of Ranlo. We also appreciate Senator David Hoyle and EDC Director Donny Hicks for helping us from the start."

"Textile manufacturing is very much alive in the niche markets. Beal Manufacturing is a great example of a local manufacturer providing jobs for our county. I am delighted with the growth of Beal Manufacturing and will do everything possible, from the State's perspective, to continue to assist the company," said State Senator David Hoyle.

"This is fantastic news for the citizens of our community. The expansion of Beal Manufacturing is a great indicator that Gaston County remains one of the best locations for manufacturers. On behalf of my fellow commissioners I want to thank Giles Beal, III; the president of the company, for his continued investment in Gaston County," stated Tom Keigher, Chairman of Gaston County Board of Commissioners.

Joe Wilkinson, III, SIOR, Vice President of Industrial Brokerage for NAI Southern Real Estate, conducted the transaction for this project.

For additional information, contact Giles Beal, III at (704) 824-9961.
