COUNTY ECONOMIC
DEVELOPMENT COMMISSION

The Ideal Location For Your Business In The Charlotte Region

April 4, 2006

Project Announcement

Century Building Products has moved to 215 Bulb Avenue

The Gaston County Economic Development Commission is pleased to announce:

The Gaston County Economic Development Commission is pleased to announce:

Century Building Products, based in Gastonia, will relocate to the building formerly occupied by Litchfield Fabrics for their wholesale distribution operations. The building space which is 29,000 square feet is located at 215 Bulb Avenue in Gastonia. This facility is being leased from Watson Investment Company.

Century Building Products provides maintenance free exterior building products to the professional contractor in both the new construction and remodeling market. Their core products include vinyl siding, windows, railing, rainware, and many other products for the exterior of a home. From this location they will be able to provide a higher level of customer support for the construction market.

"My experience with the Gaston County EDC is probably the best experience I have ever had with any government agency in Gaston County.," said David Jimison, Branch Manager of Century Building Products. "I am very pleased and relieved to see the work they are doing to help everybody in Gaston County."

The Gaston County Economic Development Commission worked with John Barker, Sr. of John Barker Realty and Watson Investment Company on this existing business project. Century Building Products will retain its current workforce of nine persons. Any new job openings will be handled at the 215 Bulb Avenue location during the regular business hours of 7:30 AM to 4:30 PM from Monday through Friday.

For more information please contact:
