Project Announcement

Dimensional Printing Locates In Existing Facility in Gastonia

The Gaston County Economic Development Commission Announces Dimensional Printing, Inc.

Gastonia, NC - Dimensional Printing, Inc., will expand its operations to the former Air Technologies building located directly off Highway 321 South. President and owner, Scott Harwell said, "The 20,000 square-foot facility allows less restraints and more functionality for our process. Our continued success depended on additional space." Harwell also runs a 40,000 square-foot warehouse and distribution center at 1617 South York Road.

Dimensional Printing is a contract printing company. The company's processes include pad transfer printing, spray masking and screen printing for such products as injection molded plastics, metal fabricating, appliances and automotive products.

"We're always pleased to see an existing company continue to be successful in Gaston County. It is the intent of this board to assist all existing business whenever possible. On behalf of the Commission, we applaud Dimensional Printing on their growth," said Mr. Tom Keigher, Chairman, Gaston County Board of Commissioners.

"The company has leased the facility with an option to purchase. In addition, significant functional and esthetic upfit was made to the building," said Marc Bolick, Project Administrator, Gaston County Economic Development Commission. The property was represented and brokered by John Barker Realty in Shelby.
