

# GASTON COUNTY ECONOMIC DEVELOPMENT COMMISSION

The Ideal Location For Your Business In The Charlotte Region

June 29, 2010

Project Announcement

## Peak Resources to build a new corporate office at the Summit!

### The Gaston County Economic Development Commission is Pleased to Announce:

Gastonia, N.C., June 29, 2010 — Peak Resources will construct its new corporate headquarters at 830 Summit Crossing Place in the Summit at Court Drive office park. The Gastonia based company operates six nursing homes in North Carolina. The new facility will be approximately 10,000 square feet in size. It will house management, accounting, and payroll, billing support, clinical support and oversight services as well as therapy management. Construction is to begin mid-July with occupancy scheduled for the first quarter of 2011.

"For over ten years, Peak Resources has enjoyed a great working relationship with Gaston County and the City of Gastonia. Peak Resources has experienced strong growth within our industry and this new corporate office will position our company to take advantage of future opportunities. We are a local business with a large regional presence. I would like to thank the Gaston County EDC for their continued support of Peak Resources and look forward to our future together." said Harold Nunn, owner and President of Peak Resources.

Mayor Jennie Stultz stated, "This is wonderful news for Gastonia and Peak Resources! The construction of Peak Resources new corporate office building is a true testimony to the quality of the City's business environment. I will make certain that our staff provides you with the best possible customer service during your construction period. On behalf of the City Council and the citizens of Gastonia, I want to personally thank Mr. Harold Nunn for his continued confidence in Gastonia."

"Peak Resources is going into a site in third phase of the Summit at Court Drive. This is very gratifying to the County Board of Commissioners as we welcome this new tenant into our development. Peak Resources new headquarters location in the Summit provides the proof that our investment in the development of our parks is paying off and providing benefit to the local business climate. We are also appreciative of the fact that this is another corporate office expanding in Gaston County. I want to provide my thanks to Harold Nunn and the employees of Peak Resources for having a magnificent company based within our community." said County Commission Board Chair Mickey Price.

Mr. Duane McCallister, Chairman of the Gaston County Economic Development Commission added, "The Gaston County EDC Board is grateful to the County Board of Commissioners for their vision in developing a variety of business parks within Gaston County. The third phase of the Summit at Court Drive represents the commitment the County has for the development of the physical product needed by today's businesses. I want to thank Mr. Nunn for his company's investment in our county. I also want to thank the staff of the EDC for their efforts on this project."

The Summit at Court Drive is an office park in its third phase of development. The County owns the property and installed the infrastructure to attract developers of the individual properties. Over 177,500 square feet of office and laboratory space has been constructed within the Summit at Court Drive.
