

Gaston County Investment Grant Program

Purpose

The Gaston County Board of Commissioners has supported economic development for more than twenty years with an emphasis on tax base development, employer diversification and job creation. The Commission has recognized the need to provide programs and financial support to strengthen and diversify the County's economy. Tax base development is a key concern for the County's fiscal health. It is essential not only to attract new investment but also to encourage existing business to expand and reinvest in their Gaston County operations. The Gaston County Investment Grant Program (GCIGP) is intended to provide an inducement for new business to locate in Gaston County and encourage existing business to expand.

Grant Program Description

The program provides grants to companies investing in Gaston County. The grant will be established by an application with Gaston County. The company must pay their taxes in full each year based on the actual tax value of the property or investment. If the company meets all of the criteria in the application, a portion of the property tax will be returned as a grant. The amount of the grant is based on a sliding scale.

- Investment Grants will be based on the increase in tax value of all real property, machinery and improvements above the base year prior to investment. No grant will be given to a company that would reduce their tax payment to an amount lower than the previous tax year.
- Purchases of any existing Gaston County facility or equipment will not qualify for the program.
- All grant monies will be taken directly from the company's tax payment. The company must be current with all other payments required by Gaston County.
- The Gaston County Board of Commissioners may modify or eliminate the program subject to meeting all existing grant obligations in effect at the time.
- No company may transfer grant agreements or contracts without explicit approval by the Gaston County Board of Commissioners.
